Dr. Shashtri Gold Medal and Scholarship
(Placed first in 1st M.B.B.S in the university)
2nd place oral presentation: Wayne State Research Day

SERVICE:

Patient care:

Inpatient rounding on the chronic kidney disease service inpatient – 1 month
Inpatient rounding on the renal transplant service – 5 months
Rounding on the Nephrology consult service – 15 days
Rounding at the VA medical center on the Nephrology consult service – 15 days
Supervising renal fellows for the renal transplant biopsy – 38 biopsies

Professional consultation:

2 half days a week in the post renal transplant clinic
1 half day a week for Nephrology clinic

TEACHING:

Years at Wayne State: Since July 2006

Courses at Wayne State School of Medicine:

Renal pathophysiology seminars for Year 2 medical students, 2006

Clinical training sessions:

Inpatients service: 1 fellow and 2 residents
Transplant service: 1 fellow and 2 residents
Consult service: 2 fellows, 2-4 residents and 1-3 medical students
Physical diagnosis
Core Curriculum

RESEARCH:

Grants:

Study of XL784 in Patients With Albuminuria Due to Diabetic Nephropathy
Phase II Trial. Duration of study 12 months
Funding: \$100,000, funded by Exelixis

Original Observations in Journals:

El-Amm JM, Doshi M, **Singh A**, Migdal S, Morawski K, Sternbauer D, Cincotta E, West M, Losanoff J, Gruber S. Preliminary experience with cinacalcet use in persistent secondary hyperparathyroidism after kidney transplantation. *Transplantation*, 2007:83(5).

Published Abstracts:

1. El-Amm JM, Gruber S, Sternbauer D, Doshi M, **Singh A**, Migdal S, Morawski K, Cincotta E, West M, Losanoff J, Haririan A. Impact of late conversion from C0 to C2 monitoring on cyclosporine A dosing and graft functional outcome in African American renal allograft recipients. ATC 2007
1. Gruber S, West M, Doshi M, **Singh A**, Morawski K, Cincotta E, Losanoff J, El-Amm JM. Early steroid withdrawal in African-American renal allograft recipients with multiple high-risk factors. ATC 2007
2. Doshi M, El-Amm JM, **Singh A**, Gruber S, West M, Losanoff J, Migdal S, Morawski K, Chandrasekar P, Alangaden G. Symptomatic urinary tract infections in renal transplant recipients: risk factors and current epidemiology. ATC 2007
3. Brown K, Doshi M, El-Amm JM, **Singh A**, Losanoff J, West M, Gruber S. Intermediate-term outcomes of hepatitis C deceased-donor renal allograft recipients. American College of Surgery meeting, 2007.

Poster Presentation:

1. Non-detectable serum potassium in an AIDS patient with metabolic acidosis, secondary to mycobacterium avium complex induced diarrhea: a case report presented at local and state ACP meeting. 1999
2. Treatment of central pontine myelinolysis with IVIG State ACP meeting 2001
3. A Rare case of Adult Medulloblastoma: Case report 2002 State ACP meeting 2002
4. Medical Importance of Alport's Syndrome: Case report 2002 State ACP meeting 2002
5. **Type I Cryoglobulinemia Associated with Primary Biliary Cirrhosis: Late Development of Lymphoid Dyscrasia and Response to Anti CD-20 Monoclonal Antibody (Rituximab) American Society of Nephrology Renal Week 2005**

Oral Presentation:

1. Treatment of Central Pontine Myelinolysis with IVIG: Second place Wayne State University Residents research day.

Clinical Research:

1. Epidemiology of Hepatocellular Carcinoma in HCV infected patients –Presented at Local and State ACP Associated meeting as a Poster. 2002
